

Valdora-Expansion: Carefully cut out the three new workshop tiles along the thin black lines. Follow the normal Valdora rules except as follows:

According to the number of players add the new workshop tiles to the supply: With three players add one new workshop tile of your choice, with four players add two new workshops. With five players use all new workshops. If a player owns two workshops of the same colour and he completes a commission whose crest is the same colour, he receives two bonus tiles.
